Election/Restrictions

1. Applicant's election without traverse of claims 1-69 in the reply filed on 7-25-05 is acknowledged.

Response to Arguments

2. Claims 1-69 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taylor (6,451,748).
3. Applicant's arguments filed 7-25-05 have been fully considered but they are not persuasive.
4. In response to applicant's argument that Taylor does not describe "anionic surfactants with enhancing attributes that enable the ease of delivery for a from foam dispenser", a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Furthermore, the anionic surfactants claimed, are taught and suggested by Taylor, wherein one of ordinary skill would expect similar properties from the same compound in the absence of a showing to the contrary.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
